The 6-foot by 10-foot deck of an Original TeaHouse is generous and flexible enough for a wide variety of uses:

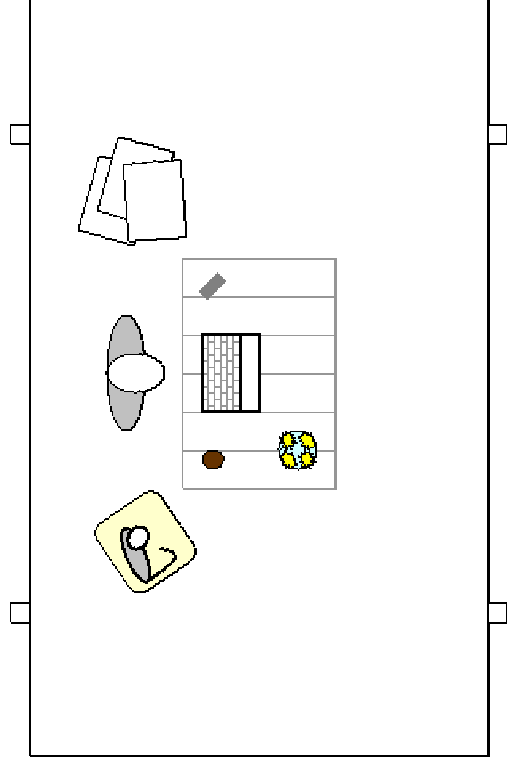

As a dining pavilion – a modest 3' x 2' *Kotatsu Table* will readily accommodate a full meal with four adults.

Lower the *Kotatsu Table* and there's plenty of room for a queen-sized bed or futon for outdoor sleeping.

As a yoga pavilion, meditation space, or exercise platform – on a level deck, with the *Kotatsu* down.

As an outdoor office, workspace, or artist's studio – with the *Kotatsu Table* up as a desktop.
